Love-quiz... For Married Folks Only

WHY DOES HE AVOID HER EMBRACE?

A. Because he is no longer happy in their marriage, constantly makes excuses to avoid the romantic intimacy of their honeymoon.

Q. What has she done? Is it really all her fault?

A. It is not so much what she has done as what she has neglected . . . and that is proper feminine hygiene.

Q. Can neglect of proper feminine hygiene really spoil a happy marriage?

A. Yes, and the pity of it is, every wife can hold her lovable charm by simply using "Lysol" disinfectant as an effective douche.

Q. Can this purpose be accomplished by homemade douching solutions?

A. No... salt, soda and similar makeshifts do not have the proved germicidal and antiseptic properties of "Lysol" which not only destroys odor but is effective in the presence of organic matter.

Q. Why does this husband not tell his wife why he avoids her?

A. Because he feels that a woman should know these important facts . . . and use every means in her power to remain glamorous, dainty and lovely to love. He resents her neglect of such fundamentals as correct feminine hygiene which is achieved so easily by regular douching with "Lysol" brand disinfectant.
